Docket No. 50-397

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

Gentlemen:

Subject: **WNP-2, OPERATING LICENSE NPF-21
NRC INSPECTION REPORT 98-10
COMMITMENT DUE DATE CHANGE**

Reference: Letter, dated July 15, 1998, JV Parrish (SS) to NRC, "NRC Inspection Report 98-10, Response to Notice of Violation"

The purpose of this letter is to inform you of a change to a commitment made in response to a Notice of Violation associated with Inspection Report 98-10. The violation pertained to reviews of outage exposure goals. In the reference letter, we committed to ensure that the Senior Site ALARA Committee review the dose goals for the Spring 1999 refueling outage by September 30, 1998. 1/0

The spring refueling outage has subsequently been rescheduled for September 1999. Accordingly, to compensate for this date change and to allow for completion of the outage scope and designation of dose related activities, dose goal reviews will now be conducted by March 31, 1999. 7-201

Should you have any questions or desire additional information regarding this matter, please call either me or Mr. PJ Inserra at (509) 377-4147.

Respectfully,

Paul Inserra for
