Gentlemen:

Subject: **WNP-2, OPERATING LICENSE NPF-21
CYCLE 15 CORE OPERATING LIMITS REPORT (COLR)**

Energy Northwest hereby submits COLR 99-15, Revision 0, in accordance with the requirements of WNP-2 Technical Specification 5.6.5. The operating limits in the COLR that were developed from the Cycle 15 reload and licensing analyses have been evaluated against the criteria of 10 CFR 50.59 and it was determined that implementation of this report does not result in an unreviewed safety question. The COLR has been reviewed and approved by the WNP-2 Plant Operations Committee.

Should you have any questions or desire additional information regarding this matter, please contact me or PJ Inserra at (509) 377-4147.

Respectfully,

DW Coleman
