Ellis W. Merschoff, Regional Administrator  
U. S. Nuclear Regulatory Commission, Region IV  
611 Ryan Plaza Drive, Suite 400  
Arlington, Texas 776011-8064

Dear Mr. Merschoff:

Enclosed is a copy of the final report for the August 12, 1999, out-of-sequence Drills for Energy Northwest's Washington Nuclear Power Project #2 (Laboratory, Food Control Point, and Milk Sampling).

There were no Deficiencies and no Areas Requiring Corrective Actions (ARCAs) identified in the three drills.

Washington State and Franklin County citizens should be proud of the performance of those involved in these drills. Participants were the Washington Department of Health (Radiation Section) and their Public Health Laboratory staff, the Washington State Department of Agriculture's Field Office Coordinator and Food Safety Officer, Franklin County Emergency Management staff, Franklin County Sheriff's Office, and as Observers, the Washington National Guard. All our Evaluators were impressed with how the objectives were demonstrated.

If you should have any questions, please contact Larry Moore, Training, Exercise, and Evaluation Team Leader, at (425) 487-4743.

Sincerely,

David L. de Courcy  
Regional Director
