Docket No. 50-397

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Mail Station P1-137
Washington, D.C. 20555

Gentlemen:

Subject: NUCLEAR PLANT NO. 2
CHANGE TO DATE OF FULL COMPLIANCE FOR NOTICE OF
VIOLATION 88-24 D. AND CHANGE IN THE EXPECTED SUBMISSION
DATE OF SUPPLEMENTAL LER 88-036-01

The Washington Public Power Supply System hereby revises our reply to the Notice of Violation contained in your letter dated November 23, 1988. The Supply System's original response is contained in Supply System letter G02-88-274, dated December 21, 1988. Our reply, pursuant to the provisions of Section 2.201, Title 10, Code of Federal Regulations consists solely of this letter.

The Supply System response to Notice of Violation 88-24 "D" committed to complete all corrective actions by February 1, 1989. Due to the length of the procedure review process the new revision of Plant Procedure 1.5.4 "Control of Measuring and Test Equipment - Transfer Standards" committed to in our response is now scheduled to be reviewed by the Plant Operating Committee (POC) on February 1, 1989. Following POC review and approval of the procedure, maintenance shop meetings will be held to explain the new procedure. This training is scheduled to be completed by February 10, 1989 which is also the anticipated distribution date for the new procedure. As an interim measure the Plant Maintenance Manager will discuss the procedure revisions with his direct reporting staff on January 31, 1989. It is expected that all actions will be completed by February 10, 1989; however, the new date of full compliance is February 17, 1989. The additional seven days is to allow for an additional POC review if the procedure is not approved on February 1, 1989 or if some unanticipated problems arise which prevent the training or procedure distribution to be completed as scheduled.

CHANGE TO DATE OF FULL COMPLIANCE FOR NOTICE OF VIOLATION 88-24 D.
AND CHANGE IN THE EXPECTED SUBMISSION DATE OF SUPPLEMENTAL LER 88-036-01

Also, the expected submission date of Supplemental LER 88-036-01 has been revised from January 31, 1989 to March 3, 1989. The root cause analysis performed in support of this supplemental report took longer than expected. This is a courtesy notification.

Very truly yours,

for
