December 22, 1989  
Docket No. 50-397  
G02-89-229

U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D.C. 20555

Gentlemen:

Subject: NUCLEAR PLANT NO. 2, OPERATING LICENSE NPF-21  
OFFSITE DOSE CALCULATION MANUAL (ODCM)

Reference: Letter, RB Samworth (NRC) to GC Sorensen (SS),  
"Offsite Dose Calculation Manual Through Rev. 6  
(TAC No. 72188)", dated September 12, 1989  
(Redistributed September 27, 1989)

In the reference letter it was pointed out that five (5) of the items identified in a previous NRC letter were not fully resolved by Rev. 6 to the ODCM. It was further requested that the Supply System consider the NRC's comments raised in their review of Rev. 6 in preparing the next revision to the ODCM.

The Supply System is presently preparing Rev. 7 to the ODCM. The purpose of this letter is to confirm that the five items discussed above have been satisfactorily resolved through recent discussions with the NRC Staff. The Supply System has documented these telephone conference calls under Record File 966.6.1 (entries for October 23 and December 1, 1989).

Very truly yours,

G. C. Sorensen, Manager  
Regulatory Programs
