Gentlemen:

Subject: NUCLEAR PLANT NO. 2, OPERATING LICENSE NPF-21  
SCHEDULING OF NRC REACTOR OPERATOR EXAM

Due to the upcoming replacement of the WNP-2 simulator, scheduled for delivery in late 1991, Washington Public Power Supply System is requesting that the NRC Reactor Operator Exam be scheduled for the week of April 1, 1991 through April 5, 1991. This time period is outside of the February or August periods currently assigned to the Supply System for this purpose.

Preliminary conversations with Mr. Lewis Miller, from NRC Region V, indicate that this time period would be acceptable pending concurrence from the Operator Licensing Branch, Office of Nuclear Reactor Regulations.

Your early response will be helpful in our planning.

Very truly yours,

Gerald C. Sorensen  
Manager, Regulatory Programs (280)
