Docket No. 50-397

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

Gentlemen:

Subject: NUCLEAR PLANT NO. 2, OPERATING LICENSE NPF-21
RESPONSE TO INSPECTION REPORT 91-41

Reference: Letter. DF Kirsch (NRC) to GC Sorensen (SS),
"NRC Inspection of WNP-2 (IR 91-41)", dated December 16, 1991

In the reference letter, the NRC indicated that fire brigade personnel at WNP-2 received stress tests. This letter is to inform the NRC that the Supply System does not require routine stress tests for any personnel. In discussions with Mr. W. Wagner, NRC Region V, it was explained that we believe this is acceptable as the Supply System's examination process provides for stress tests to be performed on fire brigade personnel if the examining physician deems it necessary to ensure the job function can be performed.

Very truly yours,

G. C. Sorensen, Manager
Regulatory Programs
