Docket No. 50-397

Mr. L. F. Miller  
U.S. Nuclear Regulatory Commission  
1450 Maria Lane  
Walnut Creek, CA 94596

Dear Mr. Miller:

Subject: **WNP-2, OPERATING LICENSE NPF-21  
IMPLEMENTATION OF EOP PHASE II**

Reference: Letter, LF Miller (NRC) to GC Sorensen (SS) dated March 4, 1993, "Issuance of Licenses for Upcoming Licensing Examinations"

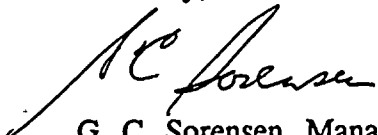

The reference letter required formal notification of the implementation of the revision to the Emergency Operating Procedures (EOPs Phase II) which was used in the administration of the March 1993 initial licensing examinations.

This revision of the EOPs was implemented for plant operation on April 9, 1993 after successful conclusion of two cycles of requalification training focusing on these changes. We have assessed the changes which have occurred to the EOPs since the examination materials were generated and have determined that no training impact exists. We therefore believe that there are no restrictions to issuing the subject licenses when they are available.

All successful licensed candidates will be starting requalification training in cycle 93-3 which is scheduled to start April 26, 1993.

Please contact me at (509) 377-4027 or Mr. Myron Baird at (509) 377-8266 if there are questions regarding this letter.

Sincerely,

 190062

G. C. Sorensen, Manager
