Docket No. 50-397

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

Gentlemen:

Subject: **WNP-2, OPERATING LICENSE NPF-21**
 NRC CORRESPONDENCE

In order to facilitate efficient management of our formal communications with the Nuclear Regulatory Commission, it is requested that all NRC correspondence to the Supply System related to WNP-2 be directed to Mr. J.V. Parrish, Assistant Managing Director, Operations.

This change will provide us with a single point of contact for all official correspondence at an executive level, to and from the NRC related to WNP-2. As the designated "Chief Nuclear Officer" of the Supply System, Mr. Parrish meets the definition of a "duly authorized officer" and a "Director" as those terms are used in Title 10, Code of Federal Regulations (10CFR) and has the authority to commit Supply System resources to meet regulatory commitments.

Immediate notifications will, of course, be communicated to the NRC directly from the Plant Manager or his staff, as appropriate.

The attachment to this letter provides our requested service list of Supply System personnel and our legal counsel for WNP-2 docket material. This does not affect the service list for State and County officials, which remain as at current.

Very truly yours,

W.G. Council,
Managing Director
