Docket No. 50-397

U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D.C. 20555

Gentlemen:

Subject:     **WNP-2 OPERATING LICENSE NPF-21**  
              **WNP-1, 2 EMERGENCY PREPAREDNESS PLAN**  
              **SPECIAL NOTICE OF CHANGE**

In accordance with 10CFR50.54(q), this special notice of change to the WNP-1, 2 Emergency Preparedness Plan (EPP) is forwarded.

The change deletes the Supply System Crisis Management Center (CMC) and its administrative support staff listed as Section 10.4.1 in the EPP. The change, submitted as Supply System SAR Change Notice (SCN) No. 92-060, was given a 10CFR50.59 Review and Safety Evaluation before being approved by the WNP-2 Plant Operations Committee (POC) on June 30, 1993, at POC Meeting No. 93-26.

In addition, POC concurred with the Supply System Emergency Preparedness position offered in the 10CFR50.59 Review, that deletion of the CMC does not decrease the effectiveness of the plan, and the plan continues to meet the standards of 50.47 (b) and Appendix E. This position is based on the CMC not being a center where decisions or direction is given to the Supply System emergency response organization, nor does it act as an information or coordinating facility for offsite agencies. Rather, the center was a location where senior corporate officials could receive briefing on events of the emergency, and use CMC administrative staff to coordinate requests for corporate assistance to the emergency organization.

It is our position that deletion of the CMC does not eliminate performance of those functions. Senior corporate officials may still receive accurate and timely briefing on emergency events from the Joint Information Center (JIC) located in the same building as the CMC. And, coordination of corporate assistance requests for the emergency organization, can be accomplished from the senior official's office with assistance provided by the senior official's staff.

**WNP-1, 2 EMERGENCY PREPAREDNESS PLAN  
SPECIAL NOTICE OF CHANGE**

This special notice of EPP change is being furnished at this time because it is the Supply System's intent to initiate CMC elimination actions now, and incorporate the change into EPP Revision 12 scheduled for publication November, 1993.

Sincerely,

J. V. Parrish (Mail Drop 1023)  
Assistant Managing Director, Operations
