NRC INSPECTION REPORT 93-201
AMENDED RESPONSE TO NOTICE OF VIOLATION

Reference: Letter GO2-93-126, dated May 27, 1993, J.V. Parrish (SS) to NRC Document Control Desk, "NRC Inspection Report 93-201; Response to Notice of Violations"

The Washington Public Power Supply System hereby amends its response to Notice of Violation B contained in your letter dated April 27, 1993. In our original response (reference) to the Notice of Violation, we committed to perform a Level 1 Root Cause Analysis to address additional problems pertaining to inadequate corrective actions and procedural adherence. This action was to be completed by June 30, 1993.

Although a level 1 Root Cause Analysis was completed as scheduled on June 30, 1993, the primary focus was on the corrective action management process. One of the recommendations which resulted from that root cause was to perform a separate Level 1 Root Cause Analysis, which is currently in progress, on procedural adherence concerns.

This letter is to inform you that the followup Level 1 Root Cause Analysis on procedural adherence will be completed by October 31, 1993.

Sincerely,

J. V. Parrish (Mail Drop 1023)
