May 31, 1994

Docket No. 50-397

GO2-94-128

U.S. Nuclear Regulatory Commission

Attn: Document Control Desk

Washington, D.C.

Gentlemen:

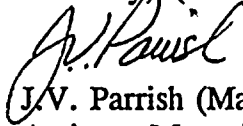

Subject: **WNP-2, OPERATING LICENSE NPF-21
RESPONSE TO GENERIC LETTER 88-20, "ACCIDENT MANAGEMENT
STRATEGIES FOR CONSIDERATION IN THE INDIVIDUAL PLANT
EXAMINATION PROCESS"**

Reference: Letter GO2-93-292, dated December 14, 1993, JV Parrish (SS) to NRC, "Individual Plant Examination (IPE)"

The referenced letter stated that an updated Individual Plant Examination (IPE) would be submitted to the NRC by May 28, 1993. The Supply System has completed the updated IPE, including review comments. However, we believe that additional management review will allow a more effective implementation of IPE recommendations and insights. Therefore, as discussed between the WNP-2 Licensing Manager and NRC Project Manager, the Supply System will submit the IPE by July 27, 1994.

Should you have any questions or desire additional information, please contact me or P.R. Bemis at (509) 377-4027.

Sincerely,

J.V. Parrish (Mail Drop 1023)

Assistant Managing Director, Operations
