LISLE, IL 60532-4352

OCT 18 2017

John S. Merrill
Radiation Safety Officer
Consumers Energy
135 W Trail St.
Jackson, MI 49201

Dear Mr. Merrill:

In letter dated October 13, 2017 and NRC Form 314 dated August 10, 2017 (ML17286A950), you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate NRC License No. 21-18784-01. In your letter, you submitted information confirming that all residual licensed material from Consumers Energy – Laboratory Services had been surveyed and dispositioned to its Jackson, Michigan location, listed on the referenced license – such that any remaining residual radioactivity associated with the license is within the limits of Title 10 of the *Code of Federal Regulations* Part 20, Subpart E, and is ALARA. Any other radioactivity is associated with sealed sources distributed under the NRC's General License granted under 10 CFR Part 31.

Based on its review, the staff has concluded that all specifically licensable radioactive material has been removed from the Consumers Energy – Laboratory facilities located at 135 W Trail St., Jackson, Michigan. Any residual radioactive material attributable to licensed activities does not exceed current NRC criteria for non-Generally licensed sources and devices. Based on these conclusions no further remediation or actions with respect to NRC regulated material are required. Your facilities are suitable for unrestricted use and NRC license number 21-18784-01 is hereby terminated.

In accordance with 10 CFR 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. If you have any questions, please contact me at (630) 829-9887.

Sincerely,

A handwritten signature in cursive script that reads "Sara A. Forster".

Sara A. Forster, M.S.
