WASHINGTON PUBLIC POWER SUPPLY SYSTEM

P.O. Box 968 • 3000 George Washington Way • Richland, Washington 99352-0968 • (509) 372-5000

November 23, 1994
GO2-94-261

Docket No. 50-397

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

Gentlemen:

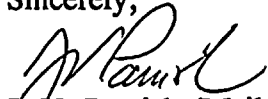

Subject: **WNP-2, OPERATING LICENSE NPF-21
SCHEDULE FOR IMPLEMENTING THE IMPROVED TECHNICAL
SPECIFICATION (ITS) PROGRAM**

Reference: 1) Letter, GO2-93-081, dated April 5, 1993, GC Sorensen (SS) to
NRC, same subject

In the reference the Supply System informed the Staff of our decision to delay a program for implementation of the Improved Standard Technical Specifications (ITS) until July, 1994. The program has been initiated and the proposed submittal date is September, 1995. We understand that the Staff expects the review time to be approximately six months. Based upon those time lines and the activities that must be completed prior to implementation, the Supply System expects to implement the ITS approximately one year after submittal, during the fourth quarter of 1996.

Should you have any questions or desire additional information regarding this matter, please call me or Ms. M.G. Eades at (509) 377-4277.

Sincerely,

J. V. Parrish (Mail Drop 1023)
Assistant Managing Director, Operations
