Docket No. 50-397

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

Subject: **WNP-2 OPERATING LICENSE NPF-21**
1995 ANNUAL ENVIRONMENTAL OPERATING REPORT

This letter is submitted per reporting requirements of Section 5.4.1 of the WNP-2 Environmental Protection Plan (EPP; Appendix B to OL).

No design or operational changes or tests in 1995 involved an unreviewed environmental question. Environmental evaluations were prepared for two proposed changes or activities. One was for the planned dewatering of condenser water boxes to accommodate on-line tube plugging. The second evaluation was for a change in the type of fill material in one cooling tower. No non-routine nonradiological reports (within the context of EPP Section 5.4.2) were required for 1995. A summary of the effluent data reported to the State of Washington on the monthly discharge monitoring reports is attached.

Should you have any questions or desire additional information regarding this matter, please call D.W. Coleman (509) 377-4342.

Sincerely,

J. V. Parrish
Chief Executive Officer
(Mail Drop 1023)
