Subject: A 50.55(e) Potentially Reportable Deficiency Relating
to Undersized Structural Steel Fillet Welds
Interim Report
File: 80-019-026

Reference: Telephone Conversation between R. Dodds and B. S.
Kaplan on May 28, 1980

Dear Sir:

The NRC was notified of a potentially reportable deficiency in the referenced telephone conversation. At that time, it was estimated that a determination of reportability would be made within thirty (30) days.

Due to the extensive investigation and evaluation required, an interim report is attached. It is now expected that this information will be finalized by September 1, 1980, at which time a complete report will be submitted.

Very truly yours,

E E Van Brunt Jr
