Mr. D. G. Eisenhower, Director  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Palo Verde Nuclear Generating Station  
PVNGS Units 1, 2 and 3  
Docket Nos. STN-50-528/529/530

Reference: Letter dated June 18, 1980 to E. E. Van Brunt, Jr.,  
Vice President, APS, from Darrell G. Eisenhower,  
Director, Division of Licensing

Dear Mr. Eisenhower:

The reference letter advised us that the Palo Verde Nuclear Generating Station (PVNGS) Units 1,2&3 Final Safety Analysis Report (FSAR) and Environmental Report - Operating License Stage (ER-OL) have been accepted for docketing, but identified certain sections which were deemed to be incomplete.

We have reviewed such identified sections and, by Attachments 1 and 2, submit copies of revised and new FSAR and ER-OL pages which provide the omitted material for all but two sections of the FSAR (Sections 3.8.3.5 and 14.2.12) and two sections of the ER-OL (Sections 2.3 and 6.2). Please note that we have committed to furnish the required information for FSAR Sections 3.8.3.5 and 14.2.12 on the specific dates indicated. With respect to the ER-OL Sections 2.3 and 6.2, we have submitted information which demonstrates that such sections, as submitted, are complete and that no further action is required.

The next amendment of the FSAR and supplement to the ER-OL will incorporate the revised and new pages contained in Attachments 1 and 2.
