Re: Palo Verde Nuclear Generating Station
PVNGS Units 1, 2 and 3
Docket Nos. STN-50-528/529/530

Dear Dr. Denton:

On July 8, 9, and 10, 1980, members of my staff and myself met with you and several of your staff. During these meetings, you suggested that it would be quite valuable if the Palo Verde Project Manager, Janis Kerrigan, could visit and receive a brief familiarization course on the PVNGS simulator. In addition, we extended an invitation to Mr. Stephen Hanauer and members of the Division of Human Factor Safety staff to visit the PVNGS simulator.

This letter extends an invitation to Janis Kerrigan to attend a brief familiarization course and also reconfirms our offer to Mr. Hanauer and staff.

We believe such a visit may add to your knowledge of PVNGS. The PVNGS simulator was built by Electronics Associates, Inc. and is an exact duplicate of each of the three Palo Verde control rooms. The simulator is currently undergoing site checkout and acceptance testing. Once we determine when the simulator will be accessible, we will notify you and arrange for a mutually acceptable date for such visits.

Please feel free to contact me regarding this matter.

Very truly yours,

E. E. Van Brunt, Jr.
APS Vice President,
Nuclear Projects
ANPP Project Director
