Washington, D. C. 20555

Re: Docket Nos.: 50-528/529/530

Dear Dr. Denton:

In response to your letter of May 29, 1981, this is to confirm the correctness of the schedules in the table that was attached. This schedule meets our plan to load fuel in November 1982.

As you requested, we will provide quarterly updates until issuance of the Safety Evaluation Report for the facility.

As you are aware from our prior reports, we are maintaining the schedule necessary to achieve the November 1982 fuel load objective. We have no reason for altering this schedule, and we are confident we will achieve it, barring any unforeseen events beyond our control. We recognize in order for the staff to accomplish its goals, we must provide timely responses to requests. As in the past, I can assure you we will be responsive to these needs. In this context, we would request that any items on our docket of a significant nature that are presently known by the staff be identified at the earliest possible date to permit our complete analysis and prompt response.

Additionally, as has been our practice in the past, we will have available to the staff as necessary in Bethesda, Maryland, those representatives needed to resolve any last minute open items which may arise in connection with the development of the Safety Evaluation Report.

I am hopeful that you will be able to visit once again the site. I would like to suggest that if your schedule permits, you consider an inspection trip this coming Fall. Please let me know if you will be able to arrange to do so.

Sincerely

KTURLEY:mft
