3) APS letter dated June 12, 1981,  
K. L. Turley to Dr. Harold R. Denton

Dear Dr. Denton:

In response to reference 2) we herewith present our first quarterly progress report on the projected plant completion date for Palo Verde Unit 1. Palo Verde Unit 1 continues at an accelerated pace. Despite a very tight schedule, we continue to expect achievement of our scheduled fuel load objective of November, 1982.

On the licensing side, we have received to date some 599 requests for additional information from the NRC staff and have responded to 469. We expect to respond to all but 19 of these requests by September 30, 1981, in order to support your schedule to issue a draft safety evaluation report by October, 1981. The disposition of the remaining 19 items has been discussed with the staff and preliminary agreement has been reached.

As I suggested to you in my June 12 letter, I am hopeful that you will be able to visit the Palo Verde site again. If your schedule permits, I think you would find it worthwhile to visit us before the end of the year.

Very truly yours,

KT:mft
