Mr. A. L. Tedesco
Assistant Director for Licensing
Division of Licensing
Office of Nuclear Reactor Regulations
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Subject: Palo Verde Nuclear Generating Station (PVNGS)
Units 1, 2 and 3 ⁵²⁸
Docket Nos. STN-50-52/529/530
File: N.1.01; 82-001-419.1; 82-056-026

Dear Mr. Tedesco:

On January 26, 1982, Bruce Kaplan of my staff spoke to Jack Sproul (QA Branch-NRC) and Bob Bosnak (Chief of the Mechanical Engineering Branch-NRC) relative to field code activities performed by Combustion Engineering, Incorporated-Avery prior to issuance of a Certificate of Authorization. These activities are allowed by Subarticle NCA-8153 of ASME Section III, Summer 1981 Addenda, but this Addenda has not yet been formally accepted by the NRC.

This work is in progress and an ASME survey of CE-Avery's field activities is scheduled for February, 1982. Although NRC acceptance/approval of NCA-8153 on PVNGS apparently is not required, this letter is to advise the NRC about CE's plan which has been accepted by CE-Avery's inspection agency.

Please contact me if you have any questions.

Very truly yours,

E. E. Van Brunt, Jr.
APS Vice President
Nuclear Projects
ANPP Project Director
