Mr. T. H. Novak
Assistant Director of Licensing
Division of Licensing
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Subject: Palo Verde Nuclear Generating Station
PVNGS Units 1, 2 and 3
Docket Nos. STN-50-528/529/530
File: 82-056-026/G.1.10

Dear Mr. Novak:

APS has recently announced delays in the inservice dates for the PVNGS Units 1 and 2. We now anticipate that Unit 1 will be ready to load fuel in August of 1983 and Unit 2 to load fuel in August of 1984. The current schedule for Unit 3 to load fuel in November of 1985 remains unchanged.

The PVNGS Construction Permit No. CPPR-141 for Unit No. 1 terminates in November of 1982, a request to amend this permit to reflect the current revision prior to the November 1982 deadline will be provided in the future.

The record in the ASLB hearings was closed on June 25, 1982 and Applicants Proposed Findings of Fact and Conclusions of Law were submitted on July 26, 1982 as scheduled by the ASLB Chairman. Intervenor's Proposed Findings of Fact and Conclusion of Law are due to be filed on August 13, 1982 and those of NRC Staff on August 23, 1982. Applicants reply to Intervenor's and Staff's proposal is due on August 30, 1982.

Supplement No. 2 of the SER was issued in May 1982 and we are continuing to work with the NRC staff in resolving those items in which further clarification or interpretation is required. We appreciate the dedication to which the NRC staff has displayed in their review of PVNGS and hope to continue the working relationship that has existed during this review.

Sincerely,

E. E. Van Brunt

E. E. Van Brunt, Jr.
