---

Yes, I looked at it this morning and we would like it included. My goal is to get all Part 37 comments resolved.

Also the first comment letter I included below does not pertain to this package so disregard.

Thanks, Gibb

Gibb, your original email did not include 2015-4; are you now indicating that this RATS ID is to be included as well?

Michelle,

This draft is primarily in response to the NRC comment letters noted below. I think the 10/28/15 comment letter was corrected and superseded by the 3/15/16 letter but it is still open on the SRS tracking sheet. The cross references are in these letters.

I have attached cross references for the two new RATs that are included.

Gibb

Hi Gibb, could you please send cross references for these RATS IDs?  
Thanks,  
Michelle

**Importance:** High

Dear Ms. Henderson,

Please find attached our latest draft of 32 IAC 337, Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material. This version should close out RATs 2013-1, 2015-2 and parts of 2015-5 related to security. We believe our current rule meets the intent of 10 CFR 37 and satisfies the health and safety categories established in the Office of Federal and State Materials and Environmental Programs (FSME) Procedure SA-200.

Thank you for your consideration in this matter. Please send us confirmation that these rules have been received and accepted. If you have any questions, please feel free to contact Gibb Vinson at (217) 785-9928.

Regards, Gibb

C. Gibb Vinson  
Head of Radioactive Materials  
Bureau of Radiation Safety
