(2) Letter from E. E. Van Brunt, Jr., APS, to T. W. Bishop, NRC Region V, (ANPP-28514-KCP/BSK), dated December 30, 1983, Subject: Final Report-DER 83-55, A 50.55(e) Report Relating to Missing Thermal Liner in the Safety Injection System Line.

Dear Mr. Knighton:

During our meeting on March 20, 1984, APS stated that it would submit additional information to the staff relating to the removal of the pressurizer surge line thermal sleeve. The reference (1) letter documented our statement.

Attached please find the additional information which consists of an evaluation to support our judgement to remove the surge line thermal liner. The information provided in the attachment is held by Combustion Engineering to be proprietary information as described in and covered by the affidavit submitted with the CEN-264(V)-P report which was provided in our December 30, 1983, submittal, reference (2).

Please contact me if you have any questions on this matter.

Very truly yours,
