Hi Steve, thanks for the submission. One note: as we already reviewed your final regulations for RATS ID 2013-2 and had no comments, we do not have to review that one again; so I am not including that RATS under this review.

Subject: [External_Sender] Request for Final Approval of Virginia RMP Regulations 12VAC5-481

Dear Mr. Williams:

Attached is a letter transmitting final Virginia Radioactive Materials Program (VRMP) regulations, 12VAC5-481, for the NRC's approval. These revisions incorporate changes that the NRC brought to our attention by letter dated June 27, 2017 (ML17159A622). Accompanying the letter are two additional documents to facilitate the NRC's final review:

<!--[if !supportLists]--> <!--[endif]-->Virginia Register with 12VAC5-481
Revision 18Sept17 (pages 237 – 320); and
<!--[if !supportLists]--> <!--[endif]-->Final Comparison Sheet RATS 2013-2 and
RATS 2015-1 through 5 with VRMP Regs and NRC Comments.

Please let me know if you have any questions concerning this request.

Thank you,
