TOTAL NUMBER OF COPIES REQUIRED: LTTR 55 ENCL 47

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting process, from the initial entry of data into the system to the final review and approval of the records.

3. The third part of the document addresses the challenges associated with record-keeping in a complex and rapidly changing environment. It discusses the need for flexibility and adaptability in the accounting system and the importance of staying up-to-date with the latest technologies and practices.

4. The fourth part of the document provides a summary of the key points discussed in the previous sections. It reiterates the importance of accurate record-keeping and the need for a robust and flexible accounting system.

5. The fifth part of the document discusses the role of the accounting system in the overall management of the organization. It highlights the importance of the accounting system in providing accurate and timely information to management for decision-making purposes.

6. The sixth part of the document outlines the responsibilities of the accounting department. It details the specific tasks and duties of the accounting staff and the importance of maintaining a high level of accuracy and integrity in all accounting activities.

7. The seventh part of the document discusses the importance of internal controls in the accounting system. It outlines the various types of internal controls that should be implemented to ensure the accuracy and integrity of the financial records.

8. The eighth part of the document provides a summary of the key points discussed in the previous sections. It reiterates the importance of accurate record-keeping and the need for a robust and flexible accounting system.

9. The ninth part of the document discusses the future of the accounting system. It outlines the various trends and challenges that are likely to shape the accounting system in the years ahead and the need for continued innovation and improvement.

10. The tenth part of the document provides a final summary of the key points discussed in the document. It reiterates the importance of accurate record-keeping and the need for a robust and flexible accounting system.

Arizona Public Service Company

Director of Nuclear Reactor Regulation
Attention: Mr. George Knighton, Chief
Licensing Branch No. 3
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

ANPP-30889 TFQ/JYM

Subject: Palo Verde Nuclear Generating Station (PVNGS)
Units 1, 2 and 3
Docket Nos. STN-50-528/529/530
Exception to R. G. 1.83
File: 84-056-026; G.1.01.10

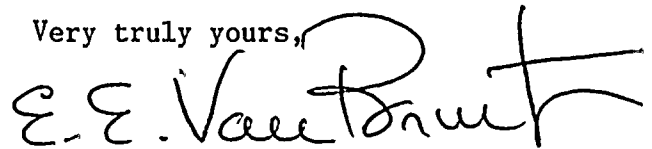

Dear Mr. Knighton:

Attached is a proposed FSAR change to Section 1.8 concerning an exception to Regulatory Guide 1.83, "Inservice Inspection of Pressurized Water Reactor Steam Generator Tubes."

The exception is to perform a base line inspection prior to the field hydrostatic test in lieu of after field hydrostatic testing.

If you have any questions on this matter, please contact me.

Very truly yours,

E. E. Van Brunt, Jr.
APS Vice President
Nuclear Production
ANPP Project Director
