TOTAL NUMBER OF COPIES REQUIRED: LTTR 53 ENCL 40

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting process, from the initial entry of data into the system to the final reconciliation of accounts.

3. The third part of the document addresses the role of internal controls in ensuring the accuracy and reliability of financial information. It describes various control mechanisms, such as segregation of duties and independent verification, that are designed to minimize the risk of error and misstatement.

4. The fourth part of the document discusses the importance of regular audits in the financial reporting process. It explains how audits provide an independent assessment of the financial statements and help to ensure that they are prepared in accordance with applicable accounting standards.

5. The fifth part of the document concludes by emphasizing the need for ongoing monitoring and improvement of the financial reporting system. It notes that the financial reporting process is a dynamic one that must evolve over time to meet the changing needs of the organization and the public.

6. The sixth part of the document discusses the importance of transparency in financial reporting. It explains that transparency is essential for building trust and confidence in the financial system and for ensuring that the public has access to accurate and reliable information.

7. The seventh part of the document outlines the specific measures that can be taken to enhance transparency in financial reporting. These measures include the use of standardized accounting practices, the timely disclosure of financial information, and the provision of clear and concise explanations of the financial statements.

8. The eighth part of the document discusses the role of the public in the financial reporting process. It explains that the public has a right to know how the financial system is operating and to have a say in how it is managed. It also notes that the public can play a key role in ensuring the integrity of the financial system by staying informed and holding the system accountable.

9. The ninth part of the document concludes by emphasizing the need for a strong and effective financial reporting system. It notes that such a system is essential for the success of the economy and for the well-being of the public.

10. The tenth part of the document discusses the importance of the financial reporting system in the context of the global financial system. It explains that the financial reporting system is a key component of the global financial system and that its integrity is essential for the stability and growth of the global economy.

11. The eleventh part of the document outlines the specific challenges that the financial reporting system faces in the global context. These challenges include the need for harmonization of accounting practices across different countries and the need to address the unique needs of emerging markets.

12. The twelfth part of the document discusses the role of international organizations in the financial reporting process. It explains that these organizations, such as the International Accounting Standards Board (IASB), play a key role in developing and promoting high-quality accounting standards that are used around the world.

13. The thirteenth part of the document concludes by emphasizing the need for continued cooperation and collaboration between all stakeholders in the financial reporting process. It notes that only through such cooperation can we ensure the integrity and effectiveness of the financial reporting system for the future.

Arizona Public Service Company

Director of Nuclear Reactor Regulation  
Mr. George W. Knighton, Chief  
Licensing Branch No. 3  
Division of Licensing  
U.S. Nuclear Regulatory Commission

Units 1, 2 and 3  
Docket Nos. STN-50-528/529/530  
ASME Section XI Inspection Spent Fuel Pool Cooling Pumps  
File: 84-056-026; G.1.01.10

- References: (A) Letter from E.E. Van Brunt, Jr., APS, to G.W. Knighton, NRC, dated 12/10/84, Subject: Spent Fuel Pool Cooling Pumps (ANPP-31404).  
(B) Letter from E.E. Van Brunt, Jr., APS, to G.W. Knighton, NRC, dated 12/18/84, Subject: ASME Section XI Inspection Spent Fuel Pool Cooling Pumps (ANPP-31499).

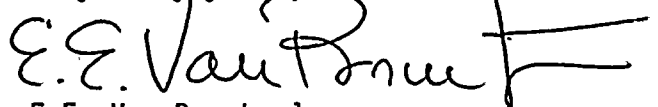

Dear Mr. Knighton:

References (A) and (B) identified a change that would delete the spent fuel pool cooling pumps from the ASME Section XI Inspection Program. As discussed with your staff, and as described in the PVNGS FSAR and SER, the Condensate Transfer System or the Refueling Water Tank provides as a backup makeup water supply for the spent fuel pool.

In order to ensure reliable operation, APS commits to add valves PC-V-215, CT-V-018, and CT-V-019 to the ASME Section XI Program. The condensate transfer pumps and the active check valves within the Condensate Transfer System are already included in the ASME Section XI Program. All active components necessary to transfer water to the spent fuel pool from the Refueling Water Tank or the Condensate Storage Tank will meet the in-service inspection requirements of ASME Section XI. Thus, the spent fuel pool cooling pumps need not meet ASME Section XI.

If you have any further questions on this matter, please contact Mr. William Quinn of my staff.

Very truly yours,

E.E. Van Brunt, Jr.  
APS Vice President  
Nuclear Production
