Subject: Palo Verde Nuclear Generating Station (PVNGS)
Units 1, 2 and 3
Docket Nos. STN-50-528/529/530
Post-FDA Proposed CESSAR Changes
File: 84-056-026; G.1.01.10

References: (A) Letter from A.E. Scherer, CE, to D.G. Eisenhut, NRC, dated
October 16, 1984 (LD-84-060); Subject: CESSAR Startup Testing.
(B) Letter from A.E. Scherer, CE, to D.G. Eisenhut, NRC, dated
December 5, 1984 (LD-84-070); Subject: CESSAR Amendment 10.

Dear Mr. Knighton:

As discussed with the NRC staff, it is APS' understanding that Post-Final Design Approval (FDA) proposed CESSAR changes will not be reviewed and approved by the NRC staff, unless a change meets the criteria of the NRC's Standardization Policy. That is, a proposed change to CESSAR will be reviewed and approved if there is an increase in the safety and health of the public.

With this staff position in mind, APS has reviewed all of the proposed CESSAR changes submitted to the staff, including CESSAR Amendment 9, issued on February 27, 1984. With regard to those changes which will not be reviewed on the CESSAR docket due to the Standardization Policy, APS hereby requests that the attached, previously submitted, proposed CESSAR changes be reviewed as proposed PVNGS FSAR changes.

This request is justified because approval of the attached proposed FSAR changes will allow 1) incorporation of improvements into the initial test program, 2) use of the most recent CE secondary water chemistry guidelines, and 3) removal of unwarranted restrictions on the transfer of hydrazine. Your review and approval will also accept 1) the justification for using primary system blowdown and 2) separation analyses with respect to Regulatory Guide 1.75 for Plant Protection System Cabinets.

Mr. G. W. Knighton
Post-FDA Proposed CESSAR Changes
