1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial system and for providing a clear audit trail.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in entering data into the system, from initial data collection to final verification.

3. The third part of the document addresses the issue of data security. It discusses the various risks associated with data loss or theft and provides recommendations for how to mitigate these risks.

4. The fourth part of the document discusses the importance of regular backups. It explains how backups can help protect against data loss and provides guidance on how to perform them correctly.

5. The fifth part of the document discusses the importance of keeping the system up to date. It explains how updates can improve the system's performance and security and provides information on how to manage updates.

Subject: Palo Verde Nuclear Generating Station (PVNGS)
Unit 1
Docket No. 50-528 (License No. NPF-41)
Operating Shift Staffing for PVNGS: Shift Advisor for Unit 1
File: 85-001-702; 85-056-026

Reference: 1) Letter from H. L. Thompson (NRC) to E. E. Van Brunt, Jr. (ANPP), dated June 1, 1985; PVNGS, Unit 1 - Issuance of Facility Operating License No. NPF-41.
2) Letter from E. E. Van Brunt, Jr. (ANPP) to D. G. Eisenhut (NRC), dated March 21, 1985; Operating Shift Staffing for PVNGS, (ANPP-32198).
3) Letter from D. G. Eisenhut (NRC), dated June 27, 1984; Generic Letter 84-16: Adequacy of On-Shift Operating Experience for Near Term License Applicants.

Dear Sir:

As required by Attachment 2 of Reference (1), ANPP is hereby notifying the NRC of our intent to replace one of the current PVNGS Unit 1 shift advisors from San Onofre Nuclear Generating Station (SONGS) with one of our recently licensed Senior Reactor Operators. Mr. Gene Eimar, who was identified as a potential shift advisor in Reference (2), has been determined to be competent to provide advice to the operating shifts on PVNGS Unit 1. He will commence his duties as shift advisor on June 10, 1985 and will replace Mr. Jose Garza who has been recalled to SONGS.

Mr. Eimar meets the shift advisor experience requirements of Reference (3) based upon his fourteen months as a licensed SRO (Shift Foreman) at the Zion Plant which is a Westinghouse PWR. He also exceeds the PVNGS requirements for the Shift Advisor Program based upon his PVNGS Unit 2 SRO License. He has also completed a training session with upper Operations Management which focused on the PVNGS Operating Department Guideline (ODG-37) "Responsibilities and Duties of the Shift Advisor".
