Walnut Creek, California 94596

SUBJECT: Certification of the Operability
of all Required Systems for Initial
Entry into Mode 2
Docket No's. STN-50-528
File: 85-056-026; G.1.01.10

Reference: PVNGS Unit 1 Operating License, NPF-34

Dear Mr. Martin:

As required by the Palo Verde Nuclear Generating Station Unit 1 Operating License, NPF-34, I am hereby certifying that Item 1.a of Attachment 1 to the license has been completed for the initial entry into Mode 2.

The operability of systems required for Mode 2 has been demonstrated by successfully meeting the acceptance criteria in the PVNGS Technical Specifications. This has been accomplished by the completion of the applicable surveillance tests or by pre-operational testing which verifies the meeting requirements of the Technical Specifications and which were performed within the required surveillance interval or by operability as demonstrated for Modes 3, 4, 5 and 6.

Very truly yours,

E. E. Van Brunt, Jr.
Executive Vice President
Project Director
