1. The purpose of this document is to provide a comprehensive overview of the current status of the project and to identify the key areas for improvement. The information presented here is based on the most recent data available and is intended to serve as a guide for decision-making.

2. The project has made significant progress since the last report, with several key milestones being achieved. However, there are still a number of challenges that need to be addressed in order to ensure the successful completion of the project.

3. The following table provides a summary of the project's performance over the last six months. The data shows that the project is on track to meet its objectives, with some minor deviations that are being closely monitored.

4. The project team has identified several key areas for improvement, including the need to enhance communication and collaboration between the different departments involved in the project.

5. The project team is committed to ensuring the highest quality of work and to providing regular updates to the project steering committee. The following table provides a summary of the project's performance over the last six months.

Project Performance Summary		Key Areas for Improvement		Project Status	
Area	Value	Area	Value	Status	Notes
Progress	85%	Communication	Low	On Track	Need to improve communication between departments
Quality	90%	Collaboration	Low	On Track	Need to enhance collaboration between departments
Cost	92%	Resource Allocation	Low	On Track	Need to optimize resource allocation
Time	95%	Project Management	Low	On Track	Need to improve project management practices
Overall	90%			On Track

Dear Sir:

Attachment 1 provides twelve (12) applications (NRC Form 398), in triplicate, for the renewal of previously issued SRO licenses.

Attachment 2 provides a completed Form 396, Certification of Medical Examination, for the twelve individuals. We request that the applicant's Form 396 be considered confidential and withheld from public disclosure pursuant to 10 CFR 2.790(a)(6) and 10 CFR 9.5(a)(6).

If you have any questions or require additional information, please contact Peggy Nelson at (602) 371-4252.

Very truly yours,

J. G. Haynes
Vice President
Nuclear Production
