1. The first part of the document is a letter from the Director of the Central Intelligence Agency to the President, dated 10/10/50. The letter discusses the results of a recent meeting with the British Prime Minister, Winston Churchill, and the implications for the United States' foreign policy. The Director notes that Churchill's views on the Soviet Union are in line with those of the United States, and that the two countries are working closely to contain the Soviet threat.

Reference: ANPP Letter 161-01254-DBK/JRP, dated August 25,
1988 to USNRC.

Dear Sirs:

Subject: Palo Verde Nuclear Generating Station (PVNGS)
Units 1, 2 and 3
Technical Specification Amendment Request
Removal of Organization Charts
File: 88-F-055-419.05; 88-A-056-026

This letter is provided to confirm a telephone conversation between Mr. M. J. Davis, NRC and Mr. J. R. Provasoli, ANPP, concerning the referenced letter. The referenced letter requested a Technical Specification Amendment that would delete Figures 6.2-1 and 6.2-2; Onsite and Offsite Organization from Section 6.2.

Mr. Davis called with comments he had received from the Office of General Council USNRC in regards to the Technical Specification Amendment request. Their comments concern Section 6.2.1b and c in that no titles were given for the Offsite and Onsite individuals who have overall responsibility for safety and operation.

After further review, ANPP agrees with the Office of General Council and herewith submits the attached insert as a replacement page to the referenced letter.

Should you have any questions or concerns, please call.

Very truly yours,

D. B. Karner
Executive Vice President
