SUBJECT: SARCEN Updates

Reference: 161-01507-ACR, dated 11/30/88, 182-02390 BFG/DWH dated 12/16/88

Based on the projects concern of having the SARCEN Updates filed in a separate manual, Nuclear Records has taken the action to update the original list of effective pages. Upon receipt of the revised List of Effective Pages 1-181 (attached), you are directed to remove ALL SARCEN changes from your SARCEN manual and insert them directly into your UFSAR Manual utilizing the List of Effective Pages as your update guide. The revised List of Effective Pages should also replace your existing List of Effective Pages.

All SARCEN MANUAL BINDER INSERTS should be returned to Regena Mills, Station 7012.

This required conversion has received a lot of upper managements attention, so strict adherence is requested.

Upon completion of the update, please sign and return the master transmittal receipt acknowledgement by February 13, 1989, to signify you have completed the update.

Your full cooperation and expedient attention is greatly appreciated.

If you have any questions, please contact Regena Mills, ext. 4328.
