

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

In the Matter of)
)
Rochester Gas and Electric Corporation) Docket No. 50-244
(R. E. Ginna Nuclear Power Plant,)
Unit No. 1))

APPLICATION FOR AMENDMENT
TO OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the U.S. Nuclear Regulatory Commission (the "Commission"), Rochester Gas and Electric Corporation ("RG&E"), holder of Provisional Operating License No. DPR-18, hereby requests that the Technical Specifications set forth in Appendix A to that license be amended to reduce the requirement for low pressurizer water level from 12 to 10.6% and change the P-10 permissive from 10% to 8% power. This change supplements the proposed Technical Specification change submitted by letter dated December 20, 1983.

The proposed technical specification changes are set forth in Attachment A to this Application. A safety evaluation is set forth in Attachment B. This evaluation also demonstrates that the proposed change does not involve a significant change in the types or a significant increase in the amounts of effluents or any change in the authorized power level of the facility. As demonstrated in Attachment C, the proposed change does not involve a significant hazards consideration. This change supplements a previous proposal, thus no additional fee is required.

WHEREFORE, Applicant respectfully requests that Appendix A to
Provisional Operating License No. DPR-18 be amended in the form
attached hereto as Attachment A.

Rochester Gas and Electric Corporation
