Subject: [External_Sender] RE: DRAFT - Request for Additional Information Regarding ASR Amendment Request

Justin,

Received.

I have forwarded to the respective engineering representatives and asked to arrange ourselves for a follow up call before the end of this week.

Is one day better than another for the NRC staff?

V/R,

Ken

CAUTION - EXTERNAL EMAIL

Ken

By letter dated August 1, 2016, as supplemented by letter dated September 30, 2016, NextEra Energy Seabrook, LLC (NextEra) submitted a license amendment request for Seabrook Station, Unit No. 1. The proposed amendment would revise the current licensing basis to adopt a methodology for the analysis of seismic category I structures with concrete affected by alkali-silica reaction. In reviewing NextEra's application, the NRC staff has developed the attached DRAFT request for additional information (RAI). Some of these DRAFT RAIs were first transmitted to you on May 5, 2017. Furthermore, these RAIs had been previously withheld from our August 4, 2017, RAIs (ADAMS Accession No. ML17214A085) and were a topic of discussion at the public meeting on August 24, 2017, regarding the NRC staff's concerns with your Stage Three evaluations. These Stage 3 RAIs were first sent as DRAFT on September 11, 2017. During a clarification call, the NRC staff agreed to modify questions D2, D7, and D8 to provide clearer understanding as to what the NRC staff is requesting. The version provided in this email is the revised DRAFT based on the clarification call.

Please review these revised DRAFT RAIs to ensure that the questions are understandable, the regulatory basis is clear, there is no proprietary information contained in the RAI, and to determine if the information was previously docketed. Based on the previous clarification call, it was agreed that a second clarification call would be held prior to final issuance. Please let me know when your staff can support a call. The NRC staff would like to have it this week.

This email does not convey a formal NRC staff position, and it does not formally request for additional information.

Thanks
