- 3) Letter dated February 7, 1994, from W. F. Conway, Executive Vice President, Nuclear, APS, to USNRC

Dear Sirs:

Subject: Palo Verde Nuclear Generating Station (PVNGS)
Units 1, 2, and 3
Docket Nos. STN 50-528/529/530
Bechtel Permission to Copy Cable Derating Practice Design Guide to Facilitate NRC Review of APS Submittal Dated September 27, 1993
File: 94-003-726; 94-010-026

Enclosed is a copy of a Bechtel letter, dated February 15, 1994, which grants permission for copying the Bechtel Cable Derating Design Guide. The design guide was provided as an attachment to Arizona Public Service Company's (APS) letter dated September 27, 1993 (Reference 1), which was submitted to the NRC in response to the NRC request for additional information sent to APS by letter dated July 21, 1993 (Reference 2). As discussed with Tim Polich, Acting NRC Project Manager for PVNGS, a copy of the Bechtel letter, granting the permission needed for the NRC to copy the Bechtel Cable Derating Design Guide in the course of reviewing and processing the September 27, 1993, submittal, is provided in lieu of resending the submittal under separate cover, as originally discussed and subsequently addressed in APS' letter dated February 7, 1994 (Reference 3).

Attention: Jack A. Bailey

Subject: Cable Derating Design Guide
with Thermo-Lag

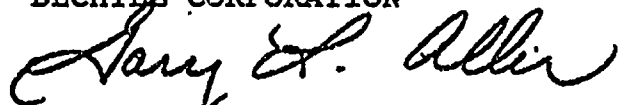

Dear Mr. Bailey:

As requested by Mr. Richard Bernier, this letter is to convey permission to Arizona Public Service Company to copy as required and to include Bechtel electrical design guide E2.64 - Rev. 2 (Cable Derating Practice) in their submittal to the Nuclear Regulatory Commission on the Thermo-Lag issue. This permission includes any subsequent copying that may be required by the NRC in the course of reviewing and processing of the submittal.

Please let me know if we can be of any further assistance.

Very truly yours,

BECHTEL CORPORATION

G. L. Allier
Project Manager
