Washington, DC 20555

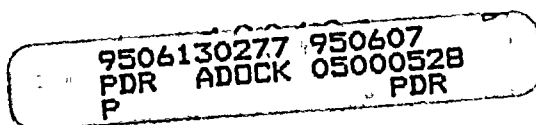

Reference: Letter No. 102-03313, dated April 6, 1995, "Proposed Amendments to Technical Specifications Section 6.0, Administrative Controls, from W. L. Stewart, APS to USNRC.

Dear Sirs:

Subject: Palo Verde Nuclear Generating Station (PVNGS)  
Units 1, 2, and 3  
Docket Nos. 50-528/529/530  
Supplement to Proposed Amendments to Technical Specifications  
Section 6.0, Administrative Controls

The purpose of this letter is to supplement the referenced letter. In the referenced letter, Arizona Public Service Company (APS) submitted a request to amend various parts of the Administrative Controls section of the Technical Specifications (TS) for the three PVNGS units, including approval to implement the improvements recommended in Generic Letter 93-07, which modified the TS requirements for the emergency and security plans. The Generic Letter provided guidance to remove the requirements for review of procedures, and procedure changes, for implementation of the emergency and security plans, provided the requirements were relocated to the respective plans. Since the review and approval provisions of Specifications 6.5.2.6 and 6.5.2.7 had been previously included in the PVNGS Administrative Control Procedures, APS had proposed not to duplicate those requirements in the respective plans as stated in the Generic Letter.

During a telephone conversation between Mr. Charles Thomas, USNRC, and Mr. Richard Bernier, APS, Mr. Thomas stated that the NRC staff would require that the current TS provisions be placed in the respective plans in order to complete processing of the requests made in Reference 1.

U. S. Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Supplement to Proposed Amendments to TS Sec. 6 Admin Controls  
Page 2

Changes to the PVNGS emergency and security plans will be processed to include the provisions of Specifications 6.5.2.6 and 6.5.2.7. Please note that the position of Director, PVNGS Services (approval authority in Specifications 6.5.2.6 and 6.5.2.7) has been eliminated. The security plan and implementing procedures will be approved by the Director, Nuclear Security, and the emergency plan and implementing procedures will be approved by the Department Leader, Emergency Planning. The changes will be processed by June 30, 1995.

Should you have any questions, please contact Richard A. Bernier at (602) 393-5882.

Sincerely,

A handwritten signature in dark ink, appearing to read 'WLS Stewart', is written over the typed name 'WLS/SAB/RAB/dpr'.
