Dear Sirs:

**Subject: Palo Verde Nuclear Generating Station (PVNGS)
Units 1, 2, and 3
Docket Nos. STN 50-528/529/530
Corrected Updated Final Safety Analysis Report (UFSAR) Pages**

It was recently discovered that the PVNGS Updated Final Safety Analysis Report (UFSAR), Revision 8, contained several inconsistencies between the List of Effective Pages and the actual UFSAR pages. These inconsistencies were the result of editorial errors, and are corrected in the enclosed UFSAR replacement pages. An original and 10 copies of the corrected pages are enclosed. By copy of this letter, APS is forwarding a copy of the enclosure to the NRC Region IV Office. Copies of the Corrected Updated Final Safety Analysis Report (UFSAR) Pages are provided to the NRC Resident Inspector's Office as an update to the assigned controlled copy. No new material is contained in the corrected pages.

Please contact Mr. Scott Bauer at (602) 393-5978 if you have any questions or would like additional information regarding this matter.

Sincerely,

Daniel G. Marks for
