---

Mr. Miranda,

This is to acknowledge receipt of your e-mail dated September 5, 2017. Your email (along with attachment) was distributed to the Chairman, Commissioners, U.S. Nuclear Regulatory Commission staff and the OIG. NRC staff followed the 2.206 petition process in reviewing your petition including: properly noticing meetings, informing you (Petitioner) of the initial recommendation, giving you (Petitioner) opportunities to address the Petition Review Board (PRB), and informing you (Petitioner) of the final recommendation in the NRC closure letter. The NRC does not re-open the petition unless significant new information is provided. The PRB reviewed your email and attachment and concluded that it does not contain any significant new information, so the petition remains closed.

Thank you,  
Michael King, PRB Chair  
U.S. Nuclear Regulatory Commission
