Spent Fuel Storage Capacity Expansion

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Enclosed please find a check in the amount of \$12,700.00 for the processing of our spent fuel storage capacity expansion submittals. The first submittal pertaining to this subject was transmitted to you by letter dated November 22, 1978, AEP:NRC:00105, over Mr. G. P. Maloney's signature.

Pursuant to discussions held with members of your staff, it was determined that the subject submittals constitute a Class IV Amendment as defined in 10 CFR 170.21, and as such require payment of \$12,300.00. An additional \$400.00 has been added to the Class IV Amendment fee, as the subject submittals affect both units of the Donald C. Cook Nuclear Plant.

It is our intention to submit the required thermal analysis on or before January 3, 1979 and the structural analysis on or before February 20, 1979.

Very truly yours,

John T. Linghast
