Donald C. Cook Nuclear Plant Units 1 and 2  
Docket Nos. 50-315 and 50-316  
License Nos. DPR-58 and DPR-74

Mr. James G. Keppler, Director  
U.S. Nuclear Regulatory Commission  
Region III  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

Ref: NRC-IE Bulletin No. 78-12, 78-12A, 78-12B  
Atypical Weld Material in Reactor Pressure Vessels

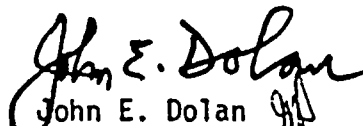

This is in response to the above referenced letter requesting information on the D. C. Cook Nuclear Plant Reactor Vessel Weld material. Westinghouse is currently collecting and compiling the necessary information from the reactor vessel fabricators. Due to the volume of the information to be compiled, Westinghouse has informed AEP that the required information will be provided for the D. C. Cook Unit No. 1 by September 28, 1979 and for the D. C. Cook Unit No. 2 by June 29, 1979.

Since the above dates exceed the response submittal time stated in IE Bulletin 78-12B, AEP, upon the advise of Westinghouse, hereby requests an extension to the response date as follows:

For D. C. Cook Unit No. 1 - October 31, 1979

For D. C. Cook Unit No. 2 - July 31, 1979

Very truly yours,

  
John E. Dolan  
Vice President
