ENVIRONMENTAL TECHNICAL SPECIFICATIONS

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Enclosed herein are three attachments which describe proposed changes to the current Appendix B, Environmental Technical Specifications. This submittal is made to meet the Commission's suggestion to adopt a Standard Environmental Protection Plan for our facility. The existing Radiological Surveillance Requirements of the Appendix B Technical Specifications are retained with minor changes made for clarification purposes. Attachments 1 and 2 to this submittal indicate the changes and the comparison with the existing Technical Specification, respectively. Attachment 3 to this submittal contains the proposed Environmental Technical Specifications, Part I - Radiological, and the Environmental Protection Plan, Part II - Non-Radiological.

Both the AEPSC Nuclear Safety Design Review Committee (NSDRC) and the Plant Nuclear Safety Review Committee (PNSRC) have reviewed and approved the proposed changes.

In accordance with 10CFR 170.22, a fee of four thousand four hundred dollars (\$4,400) for a Class III, plus a Class I Amendment to the Plant's Technical Specifications is hereby submitted.

Your immediate attention is requested towards the approval of this submittal.
