Docket Nos. 50-315 and 50-316  
License Nos. DPR-58 and DPR-74  
FIRST FSAR UPDATE - COMPLIANCE WITH 10 CFR 50.71(e)

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Denton:

We are transmitting to you thirteen signed original copies of the updated version of the Final Safety Analysis Report (FSAR) for the Donald C. Cook Nuclear Plant Unit Nos. 1 and 2, as required by 10 CFR 50.71(e). This updated version of the FSAR is based on the original FSAR, including 84 amendments, which was submitted in support of an application by Indiana & Michigan Electric Company (I&M) for licenses to operate the two units of the D. C. Cook Nuclear Plant.

Please note that we have dated the pages of this updated version of the FSAR with "July 1982" to establish a starting point for subsequent updates. In agreement with the response to question B.4 contained in the "Clarifications" portion of the Attachment to Mr. Eisenhower's letter of December 15, 1980, this updated FSAR is a "clean" document.

This document has been prepared following Corporate Procedures which incorporate a reasonable set of controls to insure its accuracy and completeness prior to signature by the undersigned.

Very truly yours,

  
R. S. Hunter  
Vice President

I, Robert S. Hunter, Vice President of Indiana & Michigan Electric Company hereby certify that, to the best of my knowledge and belief, the information being presented in the first Final Safety Analysis Report Update for the Donald C. Cook Nuclear Plant, accurately presents changes made since the previous submittal, necessary to reflect information and analyses submitted to the Commission or prepared pursuant to Commission requirement.

A handwritten signature in dark ink, appearing to read 'R. S. Hunter', is written over a vertical line.

R. S. Hunter  
Vice President
