1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the results of its investigation of the activities of the American branch of the Soviet espionage network. This is a serious omission, and it is hoped that the Commission will be able to obtain this information in the near future.

Donald C. Cook Nuclear Plant Unit No. 1
Docket No. 50-315
License No. DRP-58
WITHDRAWAL OF PROPOSED CHANGE TO
TECHNICAL SPECIFICATION 4.5.2.f

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. Steven A. Varga

Dear Mr. Denton:

We hereby withdraw our recent request for change to the Donald C. Cook Nuclear Plant Unit No. 1 Technical Specification, Surveillance Requirement 4.5.2.f. Our request was addressed in letter AEP:NRC:0849, dated October 3, 1983. Specifically, the request was to increase the total flow limit to the four branch lines on the Boron Injection System from 470 gpm to 500 gpm. We implemented a design change which enabled us to meet the requirements of the current Technical Specification. Therefore, the requested change is not needed.

To assure consistency with the requirements of 10 CFR 50.91(b)(1), a copy of this letter is being transmitted to the appropriate official of the State of Michigan.

This document has been prepared following Corporate procedures which incorporate a reasonable set of controls to insure its accuracy and completeness prior to signature by the undersigned.

Very truly yours,

M. P. Alexich

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities within the organization.

2. It is essential that all personnel are trained in proper record-keeping procedures and are held accountable for their actions.

3. The second part of the document outlines the specific steps to be followed in the event of a security breach or other emergency situation.

4. These steps include identifying the nature of the breach, notifying the appropriate authorities, and implementing measures to contain the situation.

5. It is crucial that all personnel remain calm and follow the established protocols during such incidents.

6. The third part of the document provides a detailed overview of the organization's current status and future plans.

7. This section includes a comprehensive analysis of the organization's strengths and weaknesses, as well as a discussion of the challenges it faces in the current environment.

8. The fourth part of the document outlines the organization's strategic goals and the actions required to achieve them.

9. These goals are based on a thorough understanding of the organization's mission and the needs of its stakeholders.

10. The fifth part of the document discusses the organization's financial performance and its impact on its overall health.

11. This section includes a detailed breakdown of the organization's revenue and expenses, as well as a discussion of its financial outlook.

12. The sixth part of the document provides a summary of the key findings and recommendations of the report.

13. These findings are based on a thorough review of all the information presented in the document.
