Trip Criteria For Reactor Coolant Pumps
Typographical Correction

Mr. Darrell G. Eisenhut, Director
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

In our previous AEP:NRC:0785A submittal dated May 30, 1984, we responded to NRC Generic Letters 83-10c and d for the D. C. Cook Nuclear Plant regarding automatic tripping of the reactor coolant pumps. However, a reference provided in that response was incorrectly dated.

The reference in question can be found on page 1 of submittal AEP:NRC:0785A, first paragraph, last sentence. A reference was made to WOG letter OG-110, dated December 1, 1984. The correct date should be December 1, 1983. We regret any inconveniences this typographical error may have caused you.

This document has been prepared following Corporate procedures which incorporate a reasonable set of controls to insure its accuracy and completeness prior to signature by the undersigned.

Very truly yours,

M. P. Alexich
Vice President 6/25/84
