EMERGENCY PLAN REVISION 4

Document Control Desk  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

TO WHOM IT MAY CONCERN:

Please find enclosed two copies of Revision 4 to the Donald C. Cook Nuclear Plant Emergency Plan. This revision incorporates changes to our emergency response plan of operations that have developed since Revision 3 was submitted. Changes are identified by a vertical bar in the right hand margin with the exception of those made for editorial purposes (i.e. misspellings, typos, and punctuation). In addition, to keep the Emergency Plan limited to one binder, the text was single spaced and the margins were expanded.

The changes to this revision include descriptions and organization charts of the plant and corporate emergency response organizations, designation of the DAP computer code as our primary dose assessment tool and an updated discussion of the support provided by the American Electric Power Service Corporation and the Indiana & Michigan Electric Company to the plant during an emergency.

We believe that the enclosed Revision 4 does not decrease the effectiveness of the Donald C. Cook Nuclear Plant Emergency Plan.

Upon receipt of Revision 4, please sign and return the enclosed Document Control Acknowledgment Letter.
