Mr. James G. Keppler, Regional Director  
U.S. Nuclear Regulatory Commission  
Region III

Dear Mr. Keppler:

This submittal is made in response to IE Bulletin 86-02, "Static 'O' Ring Differential Pressure Switches," and to inform your staff that, to the best of our knowledge, there are no SOR Series 102 or 103 differential pressure switches installed in electrical equipment important to safety as defined in 10 CFR 50.49(b) at the Donald C. Cook Nuclear Plant Unit Nos. 1 and 2. We have reviewed the relevant documents and have determined that the Series 102 and 103 switches have not been installed at the Donald C. Cook Nuclear Plant Unit Nos. 1 and 2.

Unless we are informed to the contrary by your staff, we will consider this issue closed.

Very truly yours,

  
M. P. Alexich  
Vice President RBK
