RE: Amendment to NRC License #13-32788-01

Dear Sir/Madam:

I (Bruce Schemehorn) am currently an "Authorized User" and the "Radiation Safety Officer" for the NRC license listed above. As of January 1, 2018 I will be retiring and as such, my name should be deleted from Items 11.A. and 11.B. of said license.

Ms. Tara Ganovsky is currently listed as an Authorized User on the license and she will be assuming the responsibility as Radiation Safety Officer upon my retirement. Ms. Ganovsky has been an Authorized User on this license since August 13, 2012 and previous to that time, was an Authorized User of radionuclides at Indiana University Medical Center. Documentation of Ms. Ganovsky's past training and experience was provided in a letter dated June 6, 2012 and she has been actively involved in radioactive material use and the radiation safety program under this license since that time.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Bruce R. Schemehorn, MS  
Director, Dental Product Testing
