Attn: A. B. Davis

Dear Mr. Davis:

This letter is to inform you that the following meteorological instruments were inoperable for longer than the seven days allowed by Technical Specification 3.3.3.4 Action b:

150' primary wind speed declared inoperable March 3, 1989  
150' secondary wind speed declared inoperable March 4, 1989  
50' primary wind speed declared inoperable March 5, 1989

The meteorological instruments had malfunctioned due to a series of ice storms that caused the instruments to freeze up and also resulted in some of the wind cups being broken. Subsequent inclement weather prevented prompt repair due to personnel safety concerns. During the time the instruments were inoperable, all gas decay tank releases were suspended.

The instruments were repaired and calibrated. All instruments were declared operable on March 12, 1989.

Respectfully,

  
W. G. Smith, Jr.  
Plant Manager
