Mail Stop O-P1-17  
Washington, DC 20555-0001

Gentlemen:

Donald C. Cook Nuclear Plant Units 1 and 2  
INTERIM SITE OPERATIONS ORGANIZATION

The purpose of this letter is to inform the NRC staff that effective March 1, 1999 Mr. John R. Sampson, Site Vice President, Nuclear Operations will assume the position of State President, American Electric Power (AEP) Indiana Michigan Power Company (I&M). In order to maintain clearly defined responsibilities and continued safe operation, Mr. Robert P. Powers, Sr. Vice President, Nuclear Generation will assume the responsibilities of site vice president for an interim period until our new Site Vice President, Mr. A. Christopher Bakken III, reports in at the D. C. Cook Plant site.

In support of the above noted temporary functional responsibility, the Vice President, Nuclear Engineering will assist the Sr. Vice President by overseeing the function of Restart/Work Control. The Business Services Director will assist the Sr. Vice President by overseeing the functions of Site Services and the Corrective Action Program. The temporary oversight responsibilities for these two individuals will be in addition to their current responsibilities. A block diagram of the interim organizational chart is attached. In accordance with requirements of 10 CFR 50.54, I&M has reviewed the above noted temporary functions and determined that the interim change does not reduce commitments in the Quality Assurance Program previously reviewed and approved by the NRC.

PDR ADOCK 05000315  
H PDR

For information, the Bureau is advised that the  
subject of this case is a member of the  
Internal Security - Communist Party, U.S.A.

Very truly yours,  
Special Agent in Charge

Enclosed for the Bureau are two copies of a  
letterhead memorandum from the New York Office  
dated and captioned as above.

Very truly yours,  
Special Agent in Charge  
New York Office

Based on this review and evaluation of the interim responsibilities, it is concluded that the functions, including oversight activities, as described in the Updated Final Safety Analysis (UFSAR), Technical Specifications, Modified Amended Security Plan, Emergency Plan and Quality Assurance Program Description (QAPD), will not reduce the level of commitments nor result in any unreviewed safety question. The overall effect of the interim organization will ensure that the functions as described remain the same. This will assure and satisfy regulatory requirements described in the UFSAR, Technical Specifications, Modified Amended Security Plan, Emergency Plan and QAPD.

Please revise the NRC distribution list for correspondence by replacing Mr. John R. Sampson with Mr. A. Christopher Bakken III, Site Vice President. In addition, please add Mr. Michael W. Rencheck, Vice President, Nuclear Engineering and indicate Mr. David. F. Kunsemiller, Director Regulatory Affairs, in place of the title "Regulatory Affairs Director." A facsimile of the NRC distribution list, indicating the above noted revisions, has been included as attachment 2 of this letter.

Copies of this letter and its attachments are transmitted to the Michigan Public Service Commission and Michigan Department of Public Health, in accordance with the requirements of 10 CFR 50.91.

If you have any questions regarding this letter, please contact David Kunsemiller, Director Regulatory Affairs at (616) 466-2405.

Sincerely,

  
R. P. Powers  
Vice President
